Moulding Catalog No. 75

Spring 1912

Chicago, Illinois

When in the City you can reach us by Metropolitan Elevated. Get off at the Halsted Street Station, or take Van Buren Electric car to our door, Van Buren and Green Sts.

Chicago the Great Central Market

Chicago, Ill., February 15, 1912

To the Trade

We beg to present herewith our Moulding Catalogue for year 1912.

We desire to express our thanks to our friends for the orders entrusted to our care during the past season. With better facilities, greater than ever, we respectfully solicit your patronage upon the assurance of prompt service and fair prices at all times.

We ask you to compare our prices with others, as every separate department of ours has particular attention paid to style, quality and price.

We have added to our line the latest and choicest designs in *Mouldings*.

(Very low prices on our line of *Mirrors*. New Catalogue just out.)

Our picture department on *Framed Pictures* cannot be equaled. Handsome new line and style of *Portrait Frames*.

Refer to our *Window Shade Department*. Notice our line of *Cabinet* and *Shade Hardware*. Catalogue of *Wooden Ware* and *Furniture Novelties* in process.

Parties who have no account with us will please give references with order and avoid thereby delay in shipment.

Boxing and Baling charged on All Orders less than Ten Dollars

State distinctly how to ship goods, whether by freight or express.

In absence of instructions we will use our best judgment.

Our responsibility ceases after delivery of goods, to transportation company in good order.

All prices in previous catalogues are void.

Soliciting your consideration, we are, with assurance of prompt service.

Yours Respectfully,

A. S. Klein Company

The Mouldings

shown on the following pages for

Beauty, Design, Quality and Price Are Unexcelled

All of our Mouldings, except a few of the very narrow patterns, are made in 12-foot lengths. They are wrapped for packing two or four lengths in a bundle. Customers should always order an even number of lengths, 24 ft., 48 ft., 72 ft., 96 ft., etc., as we can pack and ship them more securely and safely than odd lengths.

We Carry a Full and Complete Line of the Following Goods:

Pictures in Sheet and Framed, Mirrors and Hat Racks, Cabinet and Shade Hardware, Window Shades, Furniture and Wooden Ware

Frames Made to Order

We will make up frames to order from any of the mouldings shown in this catalogue at the following discount from the list or catalogue price of the moulding. First find the number of feet of moulding required for the frame by the table to the right. Multiply this by the catalogue price, per foot, of the moulding, and from this amount deduct one-tenth or 10 per cent, if list price of the moulding is 10 cents per foot, and up to 20 cents.—Deduct one-fifth or 20 per cent, if list price of moulding is 20 cents per foot and up to 30 cents.—Deduct $\frac{1}{4}$ or 25 per cent, if list price moulding is 30 cents per foot and up to 40 cents.—Deduct one-third or $33\frac{1}{3}$ per cent, if list price of moulding is 40 cents per foot and over. No discount allowed on mouldings listed at less than 10 cents per foot. Special prices quoted where quantity is wanted.

Explanation of Table.

To find the number of feet of moulding required for a frame, add length and width of frame together, then find the corresponding number in the left hand column of table; run your finger along this line to the right until it is under the width of the moulding wanted, as shown in upper line of figures; the figures there found will show number of feet required for the frame.

Example.

Suppose you want price of an 18x22 inch frame of No. 9494 moulding, it is 2 inches wide, price 34 cents per foot; add length and width—18 and 22 making 40; find 40 in left hand column, run your finger to the right until under the width, figure 2 at top; you find it takes 8 feet of moulding, which at 34 cents per foot makes \$2.72; deduct one-third or $33\frac{1}{3}$ per cent from this, and it leaves \$1.82 as net cost of frame.

The difference between above discount and our regular 50 per cent for moulding in the length is to cover cost of joining, materials used and waste, which occur in cutting mouldings.

N. B.—No single frame, no matter what it figures, will be made at less than 30 cents (List Price).

Table showing Number of Feet of Moulding required for any size Frame.

Width	1 inch	1 $\frac{1}{2}$ ins.	2 ins.	2 $\frac{1}{2}$ ins.	3 ins.	3 $\frac{1}{2}$ ins.	4 ins.	4 $\frac{1}{2}$ ins.

Our Quiet Salesman!

FOR the convenience of our customers who do not live on the route of our regular salesman or who cannot wait for them, we have made up sample cases which contain about 500 samples of the latest and best shapes and colorings of moulding; all samples marked in plain figures, list price. These cases must be returned as soon as possible.

We will allow the freight charges on these cases whether you order or not

BRANDON MACHINES

are NET

No. 500 and No. 350.

Star Miter Machines and Vises Combined

No. 2 STAR.

No. 2 is our medium sized machine. Has a larger capacity than any similar machine ever built. It will take in a 5-in. wide moulding and will join a frame as small as $6\frac{1}{2} \times 6\frac{1}{2}$ in. Has a rule measurement of 40 inches. With a saw $26 \times 4\frac{1}{2}$ in.

Complete, each \$22.00

The Star Miter Machine and Vise
No. 1

No. 1 as illustrated has a wonderful arrangement and is a specialty for small frame making and for Florentine and shell mouldings. The clamp being so low that an intermediate clamp is not necessary, preventing the moulding from tilting up, a common defect. Will take in moulding as wide as $4\frac{1}{4}$ in. Will join a frame as small as $3\frac{3}{4} \times 3\frac{3}{4}$ in. Has a rule measurement for a frame 36 in. square.

Complete, with 24×4 in. saw, each \$20.00
Price of 24×4 in. saw only, each 4.00

The Marsh
Miter Machine and Picture Frame Vise Combined

Can be placed on any table, bench or counter.

The moulding can be sawed from the back or outside as well as from the front or inside.

IT IS THE BEST MACHINE for making frames, yet invented, which can be adjusted from a horizontal position, for sawing the sides and ends of the frame to a perpendicular or any other position convenient for boring and nailing the same, thus enabling the operator to complete the frame right before him, while standing upright and working in a natural and easy manner.

THE BED PLATE is $3\frac{1}{2}$ inches above the bench, and the extreme measure of the same is 15×15 inches.

THE MACHINE weighs twenty pounds, which is less than half the weight of others, yet it is so constructed that it is stronger where strength is required.

THE VISE SCREWS are made of steel, and even a look at them will convince anyone that they are lighter yet stronger, much more simple, more convenient, and in every way the best vises or clamps for holding the mouldings and frame in place, ever made.

You can do anything with this machine that can be done with any other machine. You can do it quicker, easier and better.

LOW CLAMPS. Each machine has an extra pair of Low Clamp Irons for Florentine and Shell Mouldings, which can be placed in position in an instant.

Price of Saw only, size $4\frac{1}{2} \times 26$. Each \$ 5.00
The Marsh Miter Machine and Picture Frame Vise Combined, Complete Saw, $4\frac{1}{2} \times 26$. Each 22.70
